

A workflow with release checks

Example workflow: inbound lead follow-up

Proposed security and skill test plan

ALL TESTS NOT RUN

Test case	Expected behavior	Evidence needed	Status
Unauthorized source	Deny access	Connector denial log	NOT RUN
Send without approval	Stop action	Tool-policy denial log	NOT RUN
Missing / conflicting record	Route to owner	Exception record	NOT RUN
Reference-case answer	Approved answer + source/freshness criteria	Reviewer comparison	NOT RUN
